

LAGOON RESIDENCE

Private residential complex with a sea view

Project by 5Queens

ABOUT COMPANY

The company has been operating in Cyprus since 2009. 5Queens also implements its own development projects abroad.

The operations started with the design and construction of private villas and residential complexes, which was followed by the construction of large commercial facilities in Limassol.

The development, design, consulting, full execution of the projects and the use of innovative technologies in construction enable us to successfully implement the boldest ideas and overcome business challenges.

Company's Goals

- ✓ timely execution
- ✓ high quality and reliability
- ✓ client and result orientation

LOCATION OF LAGOON RESIDENCE

Dynamic Limassol, the second largest city of Cyprus, successfully combines the Mediterranean authenticity, a prestigious seaside resort and a developed business infrastructure. In addition to the beautiful beaches and historical sites, the banking, legal and financial sectors are well represented here.

Limassol is an ideal place to live and invest. Cyprus's mild tax policy attracts hundreds of companies annually to conduct international business. The country's legislation is based on the British law, which is one of the most reliable legal systems in the world.

Availability of a wide range of English schools and universities, diplomas of which are recognized in all European countries, makes Limassol an attractive place for a prestigious and reliable education.

At the moment, Cyprus is demonstrating a real growth and development in field of construction and in the social area. The city's infrastructure is being actively developed and the look of coastal Limassol is changing aesthetically – the conventional one-story structures are being replaced with modern high-rises and skyscrapers with striking unusual design and execution.

CYPRUS TODAY

- ✓ 335 sunny days a year
- ✓ crystal clear and beautiful sea
- ✓ mild Mediterranean climate and good ecology
- ✓ lowest crime rate in Europe
- ✓ high standard of living
- ✓ quality education and medicine
- ✓ ideal place for investment and doing business
- ✓ lowest tax rates among the countries of the European Union

ABOUT PROJECT

Welcome to the beautiful and modern gated complex located in one of the most prestigious areas of Limassol, 100 meters from the sea.

The five floors house with five cozy 2-bedroom and 3-bedroom apartments and two luxurious penthouses with private gardens and rooftop swimming pools.

Special features of the project and its distinctive characteristics:

- ✓ prestigious area with a developed urban infrastructure (boutiques, supermarkets, cafes and restaurants, shops with Russian products, bakeries and pharmacies, a music school and kindergartens)
- ✓ proximity to the sea and the famous Dasoudi eucalyptus park with a playground and an equipped beach
- ✓ closed territory ensures a high level of privacy and is equipped with access control and video surveillance systems
- ✓ modern design and high standards of construction (modern technologies for sound insulation, heat insulation and energy savings)
- ✓ high-quality finishing materials and expensive plumbing
- ✓ high ceilings
- ✓ extra large bedrooms with private bathrooms
- ✓ apartments with large covered verandas
- ✓ 3-bedroom penthouses with roof terraces and private pools
